

Prairie Regional Turf Spray Program

Greens – Cool Season

With this geography-specific spray program, superintendents have a customized rotation management plan for disease control. Be sure and include these important rotations in your plan and have strong, resilient turf all year long.

- Intrinsic® brand fungicides, like Lexicon®, Honor® and Insignia® Pro, provide effective disease control and **Plant Health Benefits***, including stronger, deeper roots and higher stress tolerance
- New Lexicon fungicide is a powerhouse broad-spectrum, dual active fungicide providing proven protection against patch diseases, anthracnose, and microdochium patch
- Insignia Pro fungicide combines two trusted active ingredients for long-lasting snow mold control
- Maxtima® fungicide delivers long-lasting disease control of key diseases at any temperature for flexibility and year-round confidence
